Ceraven CHX+KET

Antiseptic Shampoo

Fragrance: Cucumber melon

Formulated for cats, dogs and horses

Keep out of reach of children

For animal use only

A shampoo with chlorhexidine and ketoconazole, antibacterial and antifungal ingredients for antiseptic skin cleansing. Ceramides and avenanthramides are skin nourishing nutrients that moisturize and calm the skin. They also support the skin's natural immune system and provide building blocks for renewed skin barrier integrity.

Active ingredients: Chlorhexidine gluconate 2%, ketoconazole 1%.

Inactive ingredients: Water, lauramine oxide, cocamidopropyl betaine, polyacrylate-1 crosspolymer, decyl glucoside, glycolic acid, avena sativa (oat) kernel extract, glycerin, ceramide EOP, ceramide EOS, ceramide NP, potassium sorbate, fragrance, tetrasodium EDTA, methylchloroisothiazolinone, methylisothiazolinone.

Indications: For use on cats, dogs, and horses with bacterial or fungal skin infections that are responsive to chlorhexidine gluconate and ketoconazole.

Directions for use: Bathe 2-3 times per week until symptoms subside or as directed by your veterinarian. Wet the animal with cool water from the neck down and apply shampoo first on the skin abnormalities. Starting with a quarter-size amount of product, massage into the fur to reach the skin. Repeat until the entire body is lightly coated with shampoo. Leave shampoo on for 10 minutes before rinsing with cool water. Wash hands after use. For a rinse-free solution between baths, use Ceraven CHX+KET antiseptic mousse, wipes, and/or spray.

Cautions: For use on cats, dogs and horses only. Avoid contact with eyes. In case of contact with eyes, rinse thoroughly and consult your veterinarian. If skin irritation occurs or increases, discontinue use and consult your veterinarian.

Storage: Store at room temperature. Do not freeze.
